AN ORDINANCE

To set apart certain sums of money for the erection of a Grammar school, in the Twenty-fourth Ward.

Whereas, in and by an Ordinance of the Select and Common Councils of the City of Philadelphia, the day of July, 1860, the sum of nine thousand dollars was appropriated for the erection of a new Grammar school in the Twenty-fourth Section;

And whereas, in and by another Ordinance of said Councils, approved the 29th day of June, 1863, the further sum of nine thousand dollars was appropriated for the erection of the new Grammar school in said Twenty-fourth Section;

And whereas, in and by another Ordinance of said Councils, approved December 1st, 1864, the sum of sixty-two thousand dollars was appropriated for school purposes in said Twenty-fourth Section, and by Item 2 of said Ordinance, the sum of forty-nine thousand nine hundred and eight dollars was appropriated to reimburse the City Treasury for appropriations already made chargeable to the loan therein and thereby authorized, including in said sum nine thousand dollars for the erection of said new Grammar school in said Twenty-fourth Section;

And whereas, in submitting the estimates for the sums needed for school purposes in the various Wards, that part of the Twenty-fourth Ward lying south of Market street (now the Twenty-seventh Section) applied for and was allowed but the sum of ten thousand nine hundred dollars;

And whereas, the Board of School Directors of the Twenty-fourth Section, as it then existed, selected a lot for the erection of said new Grammar school at the corner of Wyoming and Baring streets, in the present Twenty-fourth Ward, and a plan was adopted and proposals advertised for for the erection of said Grammar school thereon;

And whereas, since the division of the Twenty-fourth Ward into two school sections and wards, to wit, the Twenty-fourth and Twenty-seventh, there has been erected and occupied a new school house on Ludlow street, west of Forty-first, in place of the school formerly located on Pratt street, west of Logan street in the said Twenty-fourth Ward, thereby largely increasing the school accommodations in said Twenty-seventh Section;

And whereas, out of the million loan authorized by the aforesaid Ordinance of December 1st, 1864, there has been expended in erecting a new school house on Ludlow street, below Thirty-sixth street, in said Twenty-seventh Section, the sum of twenty thousand dollars, being an excess of nine thousand one hundred dollars more than was asked for and allowed, when the aforesaid estimates were submitted;

And whereas, the Board of Controllers of Public Schools, by a resolution, determined that the unexpended balance of the million loan standing to the credit of the said Twenty-fourth Section, together with the special appropriation hereinbefore referred to, amounting together to the sum of thirty-five thousand dollars, or so much thereof as should be necessary, should be applied to the erection of the Grammar school on the lot at Wyoming and Baring streets;

And whereas, by the consent and upon the application of the Board of Controllers of Public Schools, and by the consent and upon the request of the Board of School Directors of the Twenty-fourth and Twenty-seventh Sections, the Select and Common Councils authorized the sale of the lot at Wyoming and Baring streets, and selected a new lot at Forty-first street and Oregon avenue, upon which to erect the Grammar school;

And whereas, since the change of location for said Grammar school the Board of Controllers of Public Schools have by resolution, determined that the aforesaid thirty-five thousand dollars should be divided into two equal parts, one part to the credit of the Twenty-fourth Section, and the other to the credit of the Twenty-seventh Section, contrary to equity, and contrary to the true intent and meaning of the several Ordinances, making the appropriations as aforesaid: for the purpose of correcting this unauthorized division of the appropriations made by Councils; therefore,

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That it was the true intent and meaning of the aforesaid several Ordinances that so much of the appropriation therein and thereby authorized as should be necessary should be used for the erection of a Grammar school in the Twenty-fourth Section, and the proposed division of the balance of said loans as aforesaid by the Board of Controllers of Public Schools is hereby declared

to be unauthorized and improper, and is null and void, and that so much of the said sum of thirty-five thousand dollars now standing to the credit of the Twenty-fourth Section as may be necessary for the purpose, be and the same is hereby set apart and designed for the erection of a Grammar school on the lot at Forty-first street and Oregon avenue, in the said Twenty-fourth Ward.

President of Common Council.

Assistant Clerk of Select Council.

AN ORDINANCE

To approve the contract for the erection of school building in the Seventeenth Ward.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the contract dated the fourth day of December, 1867, made between the City of Philadelphia, of the one part, and John McClure, contractor, of the other part, for the erection and construction of a new school edifice on northeast corner of Master and Apple streets in the Seventeenth Ward, for thirty-one thousand six hundred dollars; and the sureties therefor,

Andrew Given, Alexander Wilson, Hugh Copeland and Theodore Cuyler, be and the same are hereby approved.

RESOLUTION

Of Request to the State Legislature.

Whereas, an effort is being made by parties interested in private market-houses in Philadelphia, to get an Act passed by the Legislature prohibiting the sale of farm produce from farmers' wagons, standing within six squares of any such market-house ;

And whereas, such a law would have the effect in a great measure to prevent the consumer dealing directly with the producer, but force many of the farmers to sell at wholesale to hucksters or middlemen ;

And whereas, by Ordinances of the City of Philadelphia certain streets are designated as market-stands for farmers' wagons, and this being an entirely municipal regulation for the convenience of our citizens ; and as the right of our citizens to memorialize Councils for a change in any of our Ordinances is fully conceded, and generally promptly acted upon by appointing proper committees to examine into any grievances complained of, and, if found to be well founded, the Ordinance amended or repealed ; therefore,

Resolved by the Select and Common Councils of the City of Philadelphia, That the Legislature of the State be requested not to pass any bill interfering with or setting aside the

Ordinances of the City regulating market-stands, or the sale of country produce from market wagons.

Whereas, a bill is now before the Legislature of Pennsylvania directing the Chief Commissioner of Highways to remove obstructions by snow or other causes in any of the roads of the City of Philadelphia, and providing that the cost thereof shall be paid out of the City Treasury, thereby depriving the Councils of the City of the discretionary exercise of a power over a matter clearly within their legitimate province as the municipal local representatives of the people of Philadelphia; placing one of the heads of the City Departments elected by these Councils beyond their direction and control, and compelling them to appropriate money out of the Treasury of the City when no provision has been made, nor opportunity given therefor, to raise the same by taxation, thus embarrassing the finances by causing deficiencies and increasing the debt of the City; therefore,

PREAMBLE AND RESOLUTIONS

Approving the Impeachment of Andrew Johnson.

Whereas, The Councils of Philadelphia, acting in their representative capacity, deem it expedient, when important public events, interesting to the people, are transpiring, to give expression to the sentiments of those they represent; *and whereas,* we believe that all legislative bodies acting for the people should condemn any attempt to override the laws; *and whereas,* Andrew Johnson, acting President of the United States, has again, in defiance of law and in opposition to the will of the people expressed through their Representatives in Congress assembled, assumed to control the Government by usurping Judicial and Legislative authority, thus endeavoring to clothe himself with unlimited power; *and whereas,* laws passed by Congress over the veto of the President are, according to the Constitution, as binding as any others; *and whereas,* the assumption of Judicial

power, by declaring such laws unconstitutional, and of Legislative power by attempting to set up his own will in opposition to the laws, are in open violation of the Constitution; therefore,

Resolved by the Select and Common Councils of the City of Philadelphia, (That in the crisis in which Congress by the attempt of Andrew Johnson to subvert the Government now finds itself,) we hail with satisfaction the action of the House of Representatives, evidencing a determination to protect the people in the rights guaranteed them by the Constitution, and the laws passed in accordance therewith.

Resolved, That the people approve most heartily the wise and prompt action of the House of Representatives in impeaching the dangerous and unscrupulous man, who so unworthily fills the Presidential chair, previously occupied by the beloved and lamented Lincoln.

Resolved, That the Clerks of Councils are hereby instructed to transmit a copy of the above to our Representatives in Congress.

RESOLUTION

Of Request to the Legislature.

Whereas, The City of Philadelphia, since the Act of Consolidation was passed, has been oppressed by an unfair dis-

crimination in the assessed value of the real estate in the different Wards of the City; *and whereas*, the Councils have been laboring for many years to remedy this great evil, and had partially compassed that end by the passage of an Act by your honorable bodies creating a Board of Revision; *and whereas*, the Wards of the City known as the rural Wards have for many years escaped paying their fair burden of taxation by the very low rate at which the property in said Wards was assessed, and further, by the allowance of a deduction of one-third for what was termed rural property; *and whereas*, the assessment regulates the value independent of locality, and no discrimination should be made; *and whereas*, it would be just and fair to abolish entirely all discrimination on account of locality; *and whereas*, a bill has just passed the Legislature which is unjust and unfair to the great majority of the citizens of Philadelphia, being sectional in its character and discriminating against the most industrious classes of our population, said bill reducing the tax on rural property by fifty per cent., and establishing a suburban rate which is reduced by thirty-three and one-third per cent., the effect of which will be to compel the Councils next year to largely increase the rate of taxation; *and whereas*, the Councils believe that it is only necessary for the Legislature to understand the subject to promptly undo the evil; therefore,

Resolved by the Select and Common Councils of the City of Philadelphia, That the Legislature be and they are hereby respectfully requested to repeal the Act above alluded to, which is so obnoxious to the great mass of our fellow-citizens.

President of Common Council.

AN ORDINANCE

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Mayor of Philadelphia be, and he is hereby authorized to borrow, at not less than par, on the credit of the City, from time to time, eight hundred thousand dollars, for the construction of culverts, for which interest, not to exceed the rate of six per cent. per annum, shall be paid, half-yearly, on the first days of January and July, at the office of the City Treasurer. The principal of said loan shall be payable and paid at the expiration of thirty years from the date of the same, and not before, without the consent of the holders thereof; and the certificates therefor, in the usual form of the certificates of City loan, shall be issued in such amounts as the lenders may require, but not for any fractional part of one hundred dollars, or, if required, in amounts of five hundred or one thousand dollars; and it shall be expressed in said certificates that the loan therein mentioned, and the interest thereof, are payable free from all taxes.

SEC. 2. Whenever any loan shall be made by virtue thereof, there shall be, by force of this Ordinance, annually appropriated out of the income of the corporate estates, and from the sum raised by taxation, a sum sufficient to pay the interest on said certificates; and the further sum of three-tenths of one per centum on the par value of such certificates so issued shall be appropriated quarterly out of said income and taxes, to a sinking fund, which fund and its accumulations are hereby especially pledged for the redemption and payment of said certificates.

Resolved by the Select and Common Councils of the City of Philadelphia, That the Superintendent of Street Cleaning be instructed to give public notice by general advertisement in the newspapers of the city, that a book will be kept at each police station house within the paved limits of the city, for registering complaints of citizens upon the condition of the streets and highways, where they are not properly cleansed by the contractor for that service.

RESOLUTION

Of request to the Legislature.

Whereas, a bill has been introduced into the Senate of the State, providing for the payment into the City Treasury of a portion of the fees and emoluments of certain County officers, after the expiration of the term of the present incumbents, *and whereas*, application on the part of Councils has been repeatedly made to the Legislature for a law providing that certain of these officers shall not draw from the City Treasurer more than a given sum per annum, respectively, the amounts now realized by them from such Treasury being exorbitant and excessive, and not called for by any public consideration whatever, and compelling the said officers to provide and pay out of their receipts for

all stationery, and books and dockets of record necessary in said offices': therefore, be it

Resolved by the Select and Common Councils of the City of Philadelphia, That the Legislature be respectfully requested to grant the said additional legislation, in the manner and form requested by Councils, without blending with it the fees and emoluments of said County officers so as to make any part of them payable into the City Treasury, the sound principle being to let the State and City Treasuries each take its due, and bear the burthens properly belonging to it.

PREAMBLE AND RESOLUTION

Requesting the Legislature to pass an Act for the better preservation of the Schuylkill water.

Whereas, An Act entitled "A further Supplement to an Act to protect the property of the Mayor, Aldermen and citizens of Philadelphia at Fairmount, and to preserve the purity of the Schuylkill water," passed the 7th day of February, 1832, which Act received the sanction and approval of Councils on the 21st day of March, 1867, (Appendix S. C., No. 108,) has again been presented to the Legislature and is now under consideration by that body; *and whereas,* The City is expending very large sums of money in erecting works to take a supply of water from a portion of the Schuylkill now entirely unprotected by any law for maintaining and preserving its purity, it is of the utmost importance to the health, prosperity and comfort of our citizens, that the Corporation should have the power to restrain all persons from polluting the stream from which the water supply of the said City is obtained; therefore,

Resolved by the Select and Common Councils of the City of Philadelphia, That the Legislature of the Commonwealth of Pennsylvania be and they are hereby earnestly requested to pass without delay the Act entitled "A further Supplement to an Act to protect the property of the Mayor, Aldermen and citizens of Philadelphia at Fairmount, and to preserve the purity of the Schuylkill water," passed the 7th day of February, 1832.

RESOLUTION

Of instruction to the City Solicitor relative to the proposed opening of streets through the grounds of Girard College.

Whereas, the late Stephen Girard in and by his last will and testament did, among other things, devise and bequeath to the City of Philadelphia, in trust, the sum of two millions of dollars, for the purpose of erecting a permanent college for the reception and education of orphan children, as in and by the said will is provided, and did further give and bequeath the balance of the residue of his estate amounting to many millions more for the support and maintenance thereof, besides giving to the City the sum of five hundred thousand dollars, for improving the Delaware front and straightening and widening Water street;

And whereas, the said testator did further give and bequeath to the Commonwealth of Pennsylvania the sum of three hundred thousand (300,000) dollars to be paid into the State Treasury upon the enactment of certain laws by the authorities of the said Commonwealth, as therein provided;

And whereas, the Legislature of the State, on the 24th of March, A. D. 1832, in view of the provisions of the said will, to enable the Mayor, aldermen, and citizens of Philadelphia to effect the improvements contemplated by the said testator, and to execute in all other respects the trust created by his will, passed the required Act of Assembly; by the 11th section of which it is provided that no road or street shall be laid out or passed through the land in the county of Philadelphia bequeathed by the late Stephen Girard for the erection of a college, unless the same shall be recommended by the trustees or directors of said college and approved by a majority of the Select and Common Councils of the City of Philadelphia;

And whereas, by an Act of Assembly passed the 3d day of May, 1833, providing for the appointment of Commissioners to continue the surveys of the streets, roads, lanes, and alleys in the district of Spring Garden and other districts, it is provided that nothing therein contained shall authorize any survey to be made or any street, road, lane, or alley to be laid out through the land bequeathed by

Stephen Girard for the erection of a college or school in said district or township;

And whereas, An Act has been passed by the last Legislature, without the knowledge of the Trustees and Councils, directing the opening of Twenty-fourth street through the college grounds, and if acquiesced in will lead to the invasion of the privacy of the college, divide the property and will greatly impair, if not finally end in the entire destruction of the objects had in view by this munificent legacy; therefore,

Resolved by the Select and Common Councils of the City of Philadelphia, That the City Solicitor be and he is hereby instructed and directed to take such steps as may be necessary to protect and defend the rights of the City and of the trust from this and all other encroachments upon them, so that the trust may be forever held sacred and unimpaired.

There shall be three persons, skilful and competent, appointed by the Inspector, with the approval of the Mayor, to act as Assistant Inspectors; and the said Assistant Inspectors shall enter upon the performance of their duties immediately upon such approval, and hold until the termination of the time of holding of the Inspector appointing them, or until their successors be appointed, unless suspended by said Inspector, and with the approval of the Mayor removed; and no suspension or removal shall be made except for cause. Such Inspector and Assistant Inspectors shall be first duly sworn or affirmed that they will faithfully perform the duties of their respective offices, and that they will not accept any money, gift, gratuity or consideration whatever, from any person or persons whomsoever during their term of office.

Providing Subordinate Offices.

SEC. 5. The Inspector shall employ one clerk, who shall also be a Draughtsman, and one person to act as Messenger to his office.

Providing Office Rooms.

SEC. 6. There shall be provided and allotted to the Inspector, by the Committee of Councils on City Property, one or more suitable rooms to be occupied as an office.

Providing Official Seal.

SEC. 7. The Inspector shall cause to be prepared, and, with the approval of the Mayor, shall adopt an emblematic seal to be used in the performance of his duties.

Relating to Proving Instruments.

SEC. 8. The Inspector shall procure such accurate gauges, pumps and other testing apparatus as he may deem necessary, and cause proper arrangements to be made for their preservation in his office.

Relating to Stationery, &c.

SEC. 9. The Inspector shall procure suitable record-books, certificate blanks and other stationery needed for the archives and business of his office.

Registration of Steam Boilers.

SEC. 10. The user or users of every stationary steam boiler within the limits of the City of Philadelphia shall, within thirty days after notice published in the newspapers by the Inspector, report in writing to the office of the Inspector the location of every boiler in use by him or them, and the business or purpose for which the said boiler is used. The user or users shall in like manner notify the Inspector of any new steam boiler proposed to be erected or operated, so that the same may be inspected before using.

Duties of Inspector.

SEC. 11. The Inspector shall, by himself or his Assistants, personally, at least once in every year, examine each stationary steam boiler with reference to the following particulars: 1. Thickness and kind of plates employed. 2. Their apparent condition as regards imperfections, wear, or injury: 3. All new boilers hereafter made, whenever they are constructed in whole or in part of wrought-iron sheets riveted together, shall have the maker's name and the quality of the material stamped upon each sheet in accordance with the inspection laws of the United States for steamboats.

He shall also inspect the feeding apparatus, together with the various attachments required to be placed on the boilers and their pipe connections.

He shall also test each boiler by hydrostatic test to a pressure one-third ($\frac{1}{3}$) greater than that at which the boiler is to be used, as specified in his certificate. In like manner he is authorized at any time to examine the weight on the lever of the safety valves of any boiler, to see that the "P" or ball is not of greater weight than that authorized by law.

In case the hydrostatic test shall prove satisfactory and the attachments and indicators hereinafter mentioned shall have been provided, the Inspector shall furnish a certificate to that effect, which certificate shall state the maximum pressure at which the boiler shall be worked.

This certificate shall be signed by the Assistant Inspector by whom the examination has been made, and countersigned and sealed by the Inspector.

If at any time the Inspector shall deem the engine driver incompetent or unreliable, he may withhold or withdraw his certificate.

The Inspector shall report to a magistrate and have bound over for trial any person or persons who may have rendered themselves liable by infraction of any provision of this Ordinance as provided in Section 4 of the Act of May 7, 1864.

The Inspector shall notify in writing the user or users of any boiler that he will, within thirty days of the date of such notice, inspect the same, and the user or users may select such day for the inspection as may be most conve-

nient, within the time so designated: *Provided,* That in the manufacture of perishable products where loss might occur in the stoppage of the engine, the inspection may be made at the time of the annual stoppage for repairs of such works.

He shall, also, besides the annual inspection hereinbefore provided, inspect the boilers of any person or persons using the same, upon their written application at any time, ten days notice having been previously given.

It shall be the duty of said Inspector, in addition to his official examination by himself or by his assistants, to make a memorandum of all the particulars developed by the examination, and to have this memorandum properly recorded under suitable headings for future reference.

The Inspector shall report quarterly to the Mayor for communication to Councils, the number of boilers examined, and the receipts and expenditures of the office; and annually the operations of his office during the past year.

Whenever any person claiming to be qualified to perform the duty of engineer shall apply for a certificate, the Inspector shall examine the applicant and the proofs which he produces in support of his claim, and if, upon full consideration, he is satisfied that his character, habits of life, knowledge and experience in the duties of an engineer are all such as to authorize the belief that the applicant is a suitable and safe person to be intrusted with the powers and duties of such a station, he shall give him a certificate to that effect for one year, signed by him, in which certificate he shall state the time of the examination, and shall assign the appointee to the appropriate class of engineers; and each engineer licensed, as herein provided, shall pay for the first certificate granted by the Inspector the sum of three dollars, and for each subsequent certificate one dollar.

Attachments and Indicators.

Sec. 12. There shall be for each boiler or series of connected boilers at least one efficient feeding apparatus, and in case there is but one such apparatus, and it be worked by an engine employed for other purposes, this feeding apparatus shall be of such character and construction that it can

be examined and repaired in all its parts while the engine is in motion.

Each boiler shall have upon it three gauge cocks, and in addition thereto some visible means of indicating the water-level.

Every boiler when fired separately, and every set or series of boilers when placed over one fire, shall have attached thereto, without the interposition of any other valve, two or more safety valves, the aggregate area of which shall have such relations to the area of the grate and the pressure within the boiler as is expressed in schedule A, attached to this Ordinance; and every safety-valve shall have an arm or bearer distinctly notched and marked with five pounds or ten pounds divisions, and shall have but one "P" or ball for a weight. The weight of said "P" or ball is to be determined by the Inspector, the pounds and ounces of which shall be stamped or plainly marked on the weight and on the lever, and a record of the same is to be kept in the office of the Inspector; and the arm shall not have greater length than will allow the "P" to be placed so as to produce on the boiler the maximum pressure which the certificate authorizes to be carried.

There shall be for each boiler or series of boilers connected in one range, at least one good and reliable steam-pressure gauge attached, without the intervention of any valve except its own.

Every range of boilers over one fire shall be so connected by steam and feed pipes that a uniform level of water may be maintained therein.

Sec. 13. The Inspector or his Assistants shall not directly or indirectly be interested in the manufacture or sale of any of the appliances connected with steam-engines and boilers.

Charges for Inspection.

Sec. 14. The charges for inspection which shall be paid by the user or users of boilers in use by any single person, firm or company which may be inspected in one inspection, shall be as follows, viz.: for each and every boiler the sum of three (3) dollars, and for each and every square foot of grate-surface twenty (20) cents.

Salaries.

SEC. 15. The salary of the Inspector shall be, for the time he shall hold office, at the rate of two thousand (2,000) dollars per annum. The salary of each Assistant Inspector shall be at the rate of twelve hundred (1,200) dollars per annum. The Clerk at the rate of twelve hundred (1,200) dollars per annum, and the Messenger at the rate of seven hundred (700) dollars per annum.

SEC. 16. The said Inspector or his Assistants are hereby empowered to incur the necessary expenses for the transportation of instruments at an amount not exceeding the sum of two thousand (2,000) dollars per annum.

SEC. 17. All moneys collected for charges shall be paid over to the City Treasurer, and the City Controller shall audit the accounts annually.

Warrants for payment of salaries and expenses shall be drawn by the Mayor, after being approved by the Inspector.

SEC. 18. All Ordinances and parts of Ordinances inconsistent herewith are hereby repealed.

Schedule A, referred to in section 12 *of Ordinance of the Select and Common Councils for inspection of steam-boilers.*

Least aggregate area of safety-valve (being the least sectional area for the discharge of steam) to be placed upon all stationary boilers with natural or chimney draft.

(See note "a.")

This area may be expressed by the formula

$$A \frac{22.5\ G}{P\ 8.62}$$

in which A is area of combined safety-valves in inches. G is area of grate in square feet (see note "b"). P is pressure of steam in pounds per square inch to be carried in the boiler above the atmosphere.

The following table gives the results of the formula for one square foot of grate, as applied to boilers used at different pressures:

Pressures per Square Inch.

10	20	30	40	50	60	70	80	90	100	110	120
1.21	0.79	0.58	0.46	0.38	0.33	0.29	0.25	0.23	0.21		0.17

[Area corresponding to one square foot of grate.]

Example—Boiler 25 square feet of grate area and sixty pounds pressure.

For one square foot (from table) 0.33
25 square feet.

8.33 square inches.

This would call for two safety-valves each, with 4.16 square inches area of 2.3–10 diameter.

[Note "a."] Where boilers have a forced or artificial draft, the Inspector must estimate the area of grate at the rate of one square foot of grate surface for each sixteen pounds of fuel burned on the average per hour.

[Note "b."] When boilers are heated by waste heat of furnaces or otherwise than by fire on grates, the proper grate area is to be estimated by the Inspector.
